PROFILE

Final-year Computer Science student with a solid foundation in web development using Frameworks both Front-End and Back-End . Familiar with RESTful API along side DataBase management. Looking for an internship to help shape these skills for a better potential for the work environment.

PROFESSIONAL EXPERIENCE

Intern (Advanced Internship), Al-Idhafa

01/2025 – 02/2025

• Attended a course for:

- Front-End Framework: Angular
- Back-End Framework: Spring Boot
- Modeling Language (UML)
- Testing and debugging: Postman

• Developed and designed a platform for Al-Idhafa Training Centre:

Using the front-end Framework: Angular 18 and the back-end Framework: Spring Boot and Mysql for the database and Postman to test the API while also implementing user authentication with Spring Security using JWTs (JSON Web Tokens).

Kasserine, Tunisia

Intern (Entry-Level), Tunisie Telecom

01/2024 – 02/2024

• Observed the work environment for the Technical Services Section of Tunisie Telecom.

EDUCATION

DSI (Développement des Systèmes d'Information), ISET Zaghouan

09/2023 – 06/2026

(current)

High School Diploma (Bac Science), Lycée Technique Kasserine

2023

PROJECTS

Lawyer Consultation Platform, Angular/Spring Boot/ PostgreSQL/Spring Mailer:

Utilized the Front-End framework **Angular** and a few of its libraries (PrimeNG, NgxSpinner, etc.) to enhance the user interface and improve overall user experience, developing **CRUD** functionalities for user management using the Back-End framework **Spring Boot** and **PostgreSQL** while implementing an email notification feature using **Spring Mailer** for account verification and password recovery and appointments.

Doctor Consultation Platform, Symfony/Bootstrap/Mysql/Symfony Mailer:

Utilized **Bootstrap** and **Twig** for a modern interface, seamlessly developing **CRUD** functionalities for user management using the framework **Symfony** and **Mysql** while also performing functional testing of **RESTful APIs** with **Postman** and implementing an email notification feature using **Symfony Mailer**.

E-Shop for Paintings, Angular/Spring Boot/PostgreSQL/Spring Mailer/Spring Security:

Developed a modern and responsive interface using **Angular** and its libraries and also implementing user authentication and authorization using **Spring Security** developing **CRUD** functionalities for user management using **Spring Boot** and **PostgreSQL** and implementing an email notification feature using **Spring Mailer**.

SKILLS

Used Softwares:

IntelliJ, VsCode, PostgreSQL, XAMP, WAMP, DBeaver, Postman

Back-End Development:

- Spring Boot (Java)
- Symfony (PHP)

Modeling language:

- UML

DataBase:

- PostgreSQL
- MySQL
- SQLite

Front-End Development:

- Angular (TypeScript)
- Twig (Twig /Html)
- Bootstrap (CSS)
