PROFILE

Experienced developer specializing in the design, development, and optimization of web interfaces and mobile applications. Excellent command of modern programming languages and tools to deliver high performance and innovative solutions. Strong ability to manage time constraints and work efficiently in demanding environments.

PROFESSIONAL EXPERIENCE

BIAT <i>Intern</i>	01/2025 – 02/2025 Tunis
- Designed and developed a web platform to manage visitor reception at BIAT headquarters. - Features: appointment scheduling, visitor registration, internal notifications, secure interface. - Technologies used: HTML, CSS, JavaScript, PHP (Symfony), MySQL. - Collaborated with headquarters teams to adapt the platform to staff needs.	
Mobelite Tunisia <i>Intern</i>	01/2024 – 02/2024
- Discovered the workflow of a tech company specialized in mobile and web development. - Observed Scrum methodology: daily stand ups, backlog management, sprints, retrospectives. - Understood key roles: Product Owner, Scrum Master, Developers. - Analyzed project management tools such as Jira and Git. - Inspired to structure my own home service booking project using agile principles.
